What is Freegal?

- Freegal is a downloadable music service that is provided for your use by the Peters Township Public Library. Register to use this service at the Reference Desk on the 2nd floor with your valid library card.

- With access to the Sony Music Entertainment catalog, it offers hundreds of thousands of songs, over 100 genres of music, and more than 50 record labels, all without having to download special software.

- Each week you can log in and download 5 MP3s. You can stream 3 hours of music each day and also download music videos—the videos will use 2 of your weekly downloads.

- You can browse by genre or search by artist, song, album, keyword or video.

- The files are downloaded in an MP3 format, and can be played, transferred or burned onto a CD.

- When you're ready to download a track, click the download icon, select **Save** at the prompt, and designate where you want to save the song.

- Anytime you click on the download icon, even if you decide to cancel it, the download will count
